

GET READY FOR CHANGE

Nov 2000

(Chorus:)

You gotta

Get ready for change! You better listen to me!

Get ready for change!

You gotta

Get ready for change! Prepare your head and heart to

Get ready for change!

Life is a blast, from the present to the past....

You never know just what it will bring...

You think you know,

Put your life on the show...

Put your ego in a diamond ring!

Take a look around, keep your feet on the ground...

Stand strong against the danger you see.

You'll win your way on the road to brighter days

If you hold on to the dream that you see!

(To chorus)

Philosophy is the one and only key...

It's all in how you view what you see.

Sittin' on the ground --- are you half up or down?

You can change it if you want it to be...

Take a look around, keep your head above the clouds...

Stay clear in all the visions you see.

Hold fast to your plans, Hold the negatives back,

Get ready for the ride it's gonna be!

(To chorus)
