

**HER FAMILY (In Her Family)** music by Pat Metheny, lyrics by CSG

In her family I could see  
All the love they gave each other...  
Plainly living, plainly giving...  
Always there with an open heart.  
And they welcomed me, into her family.

In her family there were boys.  
And we often played together.  
Making games up,  
Days and dreams  
Of Pirate's gold, and a forest green...  
In our days together  
Joy lived in our hearts.

All the time I ever knew them,  
They were close together...  
Never had I seen a family be that way!  
Love came through the strangest doorways...  
Sorry eyes and tearstained faces,  
Realizing worth was in their hearts.

In her family, it was said,  
All for one, and One was Spirit.  
How I wish that I were there  
To see their smiles and to feel their love...  
In my heart I still can feel her family there.
